ITEM	CONTINUATION

GENERAL INFORMATION PERTAINING TO WATER RIGHTS IN CALIFORNIA

There are two principal types of surface water rights in California. They are riparian and appropriative rights.

A riparian right enables an owner of land bordering a natural lake or stream to take and use water on his riparian land. Riparian land must be in the same watershed as the water source and must never have been severed from the sources of supply by an intervening parcel without reservation of the riparian right to the severed parcel. Generally, a riparian water user must share the water supply with other riparian users. Riparian rights may be used to divert the natural flow of a stream but may not be used to store water for later use or divert water which originates in a different watershed, water previously stored by others, return flows from use of groundwater, or other "foreign" water to the natural stream system.

An appropriative right is required for use of water on nonriparian land and for storage of water. Generally, appropriative rights may be exercised only when there is a surplus not needed by riparian water users. Since 1914, new appropriators have been required to obtain a permit and license from the State. Appropriative rights can be granted to waters "foreign" to the natural stream system.

Statements of Water Diversion and Use must be filed by riparian and pre 1914 appropriative water users as set forth in Water Code section 5100 with specific exceptions. The filing of a statement (1) provides a record of water use, (2) enables the State to notify such users if someone proposes a new appropriation upstream from their diversions, and (3) assists the State to determine if additional water is available for future appropriators.

The above discussion is provided for general information. For more specific information concerning water rights, please contact an attorney or write to this office. We have several pamphlets available. They include: (1) Statements of Water Diversion and Use, (2) Information Pertaining to Water Rights in California, and (3) Appropriation of Water in California.

DIV OF WATER RIGHTS  
SACRAMENTO

We no longer own the property referred to in the attached forms. It was sold in May 2003. The new owners are Warren S. Halsey and Laurie M. Halsey, trustees of The Halsey Tree Farm Trust of March 5, 1990.

However, I can state that no one was living on the property during the period from January 2001 to May 2003, so no water was being used.

Sincerely,

Thomas W. Smith

## GENERAL INFORMATION PERTAINING TO WATER RIGHTS IN CALIFORNIA

There are two principal types of surface water rights in California. They are riparian and appropriative rights.

A riparian right enables an owner of land bordering a natural lake or stream to take and use water on his riparian land. Riparian land must be in the same watershed as the water source and must never have been severed from the source of supply by an intervening parcel without reservation of the riparian right to the severed parcel. Generally, a riparian water user must share the water supply with other riparian users. Riparian rights may be used to divert the natural flow of a stream but may not be used to store water for later use or to divert water which originates in a different watershed, or return flows from use of groundwater.

An appropriative right is required for use of water on nonriparian land and for storage of water. Generally, appropriative rights may be exercised only when there is a surplus not needed by riparian water users. Since 1914 new appropriators have been required to obtain a permit and license from the State.

Statements of Water Diversion and Use must be filed by riparian and pre-1914 appropriative water users. The filing of a statement (1) provides a record of water use, (2) enables the State to notify such users if someone proposes a new appropriation upstream from their diversion, and (3) assists the State to determine if additional water is available for future appropriators.

The above discussion is provided for general information. For more specific information concerning water rights, please contact an attorney or write to this office. We have several pamphlets available. They include:

no change - the spring has been so low throughout 1988 that our tenants have been unable to get any water - all that came from the spring was diverted to Gates & Krugs & Posch's water systems - our renters were forced to move out.

D. If part of the water listed in Part A consists of reclaimed or polluted water, please indicate the annual amounts of reclaimed or polluted water in the space below.

I declare under penalty of perjury that the information in this report is true to the best of my knowledge and belief.

## GENERAL INFORMATION PERTAINING TO WATER RIGHTS IN CALIFORNIA

There are two principal types of surface water rights in California. They are riparian and appropriative rights.

A riparian right enables an owner of land bordering a natural lake or stream to take and use water on his riparian land. Riparian land must be in the same watershed as the water source and must never have been severed from the source of supply by an intervening parcel without reservation of the riparian right to the severed parcel. Generally, a riparian water user must share the water supply with other riparian users. Riparian rights may be used to divert the natural flow of a stream but may not be used to store water for later use or to divert water which originates in a different watershed, or return flows from use of groundwater.

An appropriative right is required for use of water on nonriparian land and for storage of water. Generally, appropriative rights may be exercised only when there is a surplus not needed by riparian water users. Since 1914 new appropriators have been required to obtain a permit and license from the State.

Statements of Water Diversion and Use must be filed by riparian and pre-1914 appropriative water users. The filing of a statement (1) provides a record of water use, (2) enables the State to notify such users if someone proposes a new appropriation upstream from their diversion, and (3) assists the State to determine if additional water is available for future appropriators.

The above discussion is provided for general information. For more specific information concerning water rights, please contact an attorney or write to this office. We have several pamphlets available. They include:

- "Statements of Water Diversion and Use"
- "Information Pertaining to Water Rights in California"
- "Water Rights for Stockponds Constructed Prior to 1969"
- "Appropriation of Water in California"

DIV. OF WATER RIGHTS  
 SACRAMENTO

A. Name of person diverting water

THOMAS W. SMITH

Summer Address RT 1 Box 22H Greenville, CA 95947

Telephone: 916-284-6486

School Year Address 709 E. Laurel Ave Glendora, CA 91740

213-335-9388

B. Name of body of water at point of diversion

Spring in Hunt Canyon

Tributary to

Wolf Creek

C. Place of diversion

SE 1/4, NE 1/4 Section 4

Township 26N

Range 10E

M.D.M. B&M,

Plumas

County, or locate it on sketch of section grid on reverse side with regard to section

lines or prominent local landmarks.

D. Name of works

E. Capacity of diversion works

consists of a 1" pipe - current flow is 1/3 cubic foot per second

Capacity of storage reservoir

rock-lined hole holds ~ 300

State quantity of water used each month in gallons or acre-feet

Year	Jan.	Feb.	Mar.	Apr.	May	June	July	Aug.	Sept.	Oct.	Nov.	Dec.	Total Annual
						✓	✓	✓					

If monthly and annual use are not known, check months in which water was used. State extent of use in units, such as acres of each crop irrigated, average number of persons served, number of stock watered, etc.

Serves family of 4 and their summer guests

Maximum annual water use in recent years

gallons

Minimum annual water use in recent years

acre-foot

gallons

acre-foot

Type of diversion facility: gravity ✓, pump

Method of measurement: weir, flume, electric power meter, water meter, estimate ✓ using gullon jug

F. Purpose of use (what water is being used for)

domestic use only

G. General description or location of place of use (use sketch of section grid on reverse side if you desire)

water is used in and around a mobile home located as shown in sketch.

H. Year of first use as nearly as known 1977

I. Name of person filing statement

THOMAS W. SMITH

Position

Teacher

Organization

MT SAN ANTONIO COLLEGE

Address

1100 N. GRAND

WALNUT, CA 91789

Telephone:
